AMERICAN EDUCATIONAL RESEARCH JOURNAL

index vols. 1, 2, 3, 4 april 1968

published four times a year january march

may november

The AMERICAN EDUCATIONAL RESEARCH JOURNAL publishes original reports of experimental and theoretical studies in education.

Manuscripts should be submitted in *triplicate* (one original and two legible carbon copies) to permit prompt review by the consulting editors. The style of the manuscript with respect to citations and references is the same as that of the REVIEW OF EDUCATIONAL RESEARCH. For details, consult the *NEA Style Manual* (Washington: National Education Association, 1962).

Manuscripts and all correspondence on editorial matters pertaining to the AMERICAN EDUCATIONAL RESEARCH JOURNAL should be addressed to the Editor, Robert W. Heath, AMERICAN EDUCATIONAL RESEARCH JOURNAL, P. O. Box 6566, Stanford, California 94305.

The author, or principal author, of each paper, book review, or test review published in the *Journal* will receive 50 reprints free of charge. Additional reprints may be ordered at the time galley proof is returned.
Permission to reprint tables, figures, or more than 500 words of text must be obtained from the Association.

Correspondence about subscriptions, changes of address, orders for back issues, etc., should be addressed to the Executive Officer, American Educational Research Association, 1126-16th Street, Washington, D. C. 20036. Requests for change of address must be received at least one month before the publication date of the first issue to be affected by the request. Undelivered copies resulting from changes of address cannot be replaced without charge; subscribers should notify the post office that they will guarantee second-class forwarding postage.

The AMERICAN EDUCATIONAL RESEARCH JOURNAL is sent free of charge to members of the American Educational Research Association. The annual subscription rate is $6.00, but a special annual rate is available to libraries at 10.00 for one regular and one bindery copy of each issue. Single copies sell for $2.00.

Published four times a year: January, March, May, and November, by THE AMERICAN EDUCATIONAL RESEARCH ASSOCIATION, 1201 Sixteenth Street, N.W., Washington, D. C. 20036. Copyright 1968 by the American Educational Research Association. A Department of the National Education Association. Second-class postage paid at Washington, D. C. and additional mailing offices.

AMERICAN EDUCATIONAL RESEARCH JOURNAL

EDITOR
Robert W. Heath, *Stanford University*

REVIEW EDITOR
Fred N. Kerlinger, *New York University*

EDITORIAL BOARD
Editor, *American Educational Research Journal*
Executive Officer, *American Educational Research Association*
Julian C. Stanley, *term ending in 1971*
Neal Gross, *term ending in 1969*
Lawrence G. Thomas, *term ending in 1970*

Subject Index

Ability grouping,
gains in English and mathematics achievement as related to section variance; Vol. 1, No. 1: 47-51.
prediction of persistence in college within ability groups; Vol. 3, No. 2: 105-111.
Achievement,
related to creativity and anxiety; Vol. 3, No. 2: 131-138.
related to the ratio of time spent to time needed in learning; Vol. 4, No. 4: 337-343.
Achievement test performance,
as a function of test difficulty level; Vol. 1, No. 1: 22-25.
Adjective check list; Vol. 3, No. 2: 106.
American Council on Education Psychological Examination; Vol. 2, No. 3: 159.
Analysis of covariance,
applied to a class of pseudo-experiments; Vol. 3, No. 2: 79-87.
Anxiety,
related to creativity and achievement; Vol. 3, No. 2; 131-138
test anxiety and silent reading gain; Vol. 4, No. 1: 45-50.
Arithmetic teaching,
Cuisenaire method and gains in arithmetic achievement; Vol. 1, No. 3: 159-167.
Arousal,
effect of on retention; Vol. 4, No. 2: 103-116.
Attitude,
toward learning procedures; Vol. 1, No. 2: 95-100.
toward education and perception of traits of teachers; Vol. 3, No. 3: 159-168.
factor analytic study of educational attitudes; Vol. 4, No. 3: 191-205.

Bartlett's test of significance of a correlation matrix,
empirical results related to; Vol. 4, No. 1: 13-17.
Bayesian statistics,
in educational and psychological research; Vol. 1, No. 4: 219-228.
Bender-Gestalt test; Vol. 1, No. 3: 155-156.
Bowling,
variables related to handling a bowling ball; Vol. 2, No. 2: 113-120.

California Achievement Tests; Vol. 1, No. 1: 123.
—Vol. 1, No. 3: 155-156.
—Vol. 2, No. 1: 4, 9, 11.
—Vol. 4, No. 1: 21-26.
—Vol. 4, No. 4: 368-370.
California Psychological Inventory; Vol. 3, No. 3: 200-208.
California Reading Test; Vol. 2, No. 4: 208-212.
—Vol. 4, No. 4: 368-369.
California Test of Mental Maturity; Vol. 1, No. 2: 122.

—Vol. 1, No. 3: 155-156.
—Vol. 1, No. 3: 185-198.
—Vol. 2, No. 1: 3, 4, 11.
—Vol. 2, No. 4: 208-213.
—Vol. 3, No. 2: 132.
—Vol. 4, No. 4: 368-370.
Children's Form of the Manifest Anxiety Scale,
analysis of sex differences; Vol. 2, No. 1: 19-25.
related to measures of achievement, creative thinking and intelligence; Vol. 3, No. 2: 133, 134, 137.
Class size,
effect on achievement and attitudes; Vol. 1, No. 4: 229-239.
Classroom behavior,
quantitative procedure for assessing student and teacher classroom behavior; Vol. 1, No. 4: 249-260.
related to underachievement; Vol. 2, No. 1: 1-12.
factor analysis of classroom-disturbance intercorrelations; Vol. 2, No. 1: 37-40.
teacher control behavior and pupil creativity-test gains; Vol. 2, No. 2: 75-82.
teacher behavior and student evaluations of teachers; Vol. 3, No. 1: 35-47.
characteristics of non-participants; Vol. 3, No. 3: 198-210.
proportion of class time spent in listening, speaking, reading and writing; Vol. 4, No. 2: 117-124.
initial teaching style and teacher trainee personality; Vol. 4, No. 3: 253-259.
teacher behavior toward boys and girls during reading instruction; Vol. 4, No. 3: 261-269.
dimensions of teacher verbal communication; Vol. 4, No. 3: 271-278.
student teacher behavior related to supervisor ratings; Vol. 4, No. 3: 279-288.
College Qualification Test; Vol. 2, No. 3: 178-182.
—Vol. 3, No. 3: 191-196.
Computer-aided instruction,
development and current status of; Vol. 2, No. 1: 41-54.
relation to learning principles; Vol. 2, No. 1: 41-42.
current projects; Vol. 2, No. 1: 42-43.
typical equipment; Vol. 2, No. 1: 43-44.
teaching programs; Vol. 2, No. 1: 44-47
research on; Vol. 2, No. 1: 47-48.
programming and equipment improvements; Vol. 2, No. 1: 48-50.
current problems; Vol. 2, No. 1: 50-51
future prospects; Vol. 2, No. 1: 51-53.
development and evaluation of computer-controlled course; Vol. 4, No. 1: 59-73.
Computer simulation of data for certain classroom variables; Vol. 4, No. 3: 289-293.
Concept attainment,
relative effectiveness of verbal and pictorial stimuli in; Vol. 1, No. 4: 241-248.
comparison of two methods of calculating strategies in; Vol. 4, No. 4: 361-366.
Confidence intervals and inferences about differences between scores; Vol. 4, No. 2: 139-145.
Cooperative Achievement Tests; Vol. 2, No. 3: 159.
Cooperative English Test; Vol. 2, No. 3: 159.
Cooperative Interest Index; Vol. 2, No. 2: 101-112.

Cornell Conditional Reasoning Test; Vol. 1, No. 3: 194-196.
Correlates of graduation and attrition in a college of engineering; Vol. 2, No. 2: 63-74.
Course characteristics,
and teachers' behavior; Vol. 3, No. 1: 43-47.
Creative Thinking Tasks; Vol. 3, No. 2: 133.
Creativity,
types and forms of in children; Vol. 2, No. 3: 125-136.
related to achievement and anxiety; Vol. 3, No. 2: 131-138.
validity of Minnesota Tests of Creative Thinking; Vol. 4, No. 4: 387-396.
Cultural differences in ability,
high school students compared on measures of verbal and numerical ability; Vol. 4, No. 1: 19-30.
Curiosity,
measurement of in elementary school pupils; Vol. 3, No. 2: 147-156.
Decision theory,
theoretical model applied to counselor and teacher decisions on college attendance; Vol. 3, No. 4: 263-271.
Deductive teaching methods,
compared to inductive methods; Vol. 2, No. 4: 223-235.
Defensiveness,
manifested in sex differences on an anxiety scale; Vol. 3, No. 1: 19-25.
Differential Values Inventory; Vol. 2, No. 3: 178-182.
Discovery learning,
compared to task completion and assignment as factors in motivation; Vol. 2, No. 4: 217-222.
Discrimination indexes,
Davis index; Vol. 1, No. 1: 36-45.
difference index; Vol. 1, No. 1: 36-45.
Flanagan index; Vol. 1, No. 1: 36-45.
Gulliksen index; Vol. 1, No. 1: 36-45.
stability of over groups of different average ability; Vol. 1, No. 1: 36-45.
Dogmatism,
Rokeach's Dogmatism Scale; Vol. 2, No. 3: 178-182.
Educational psychology,
student service as teacher aides: an experimental method of teaching educational psychology; Vol. 3, No. 2: 113-124.
Educational research,
evaluation of past accomplishments and present status; Vol. 3, No. 3: 211-221.
need for stock-taking; Vol. 3, No. 2: 211-214.
methodological contributions; Vol. 3, No. 2: 214-215.
substantive contributions; Vol. 3, No. 2; 215-218.
in retrospect; Vol. 3, No. 2: 218
suggestions for the future; Vol. 3, No. 2: 218-220.
possible consequences; Vol. 3, No. 2: 220-221.
Edwards Personal Preference Schedule; Vol. 3, No. 2: 106.
Elementary school curriculum,
implications for in modern learning theory; Vol. 1, No. 2: 79-93.
individual differences; Vol. 1, No. 2: 79-82
reinforcement and correction; Vol. 1, No. 2: 82-83.
nature of transfer; Vol. 1, No. 2: 83-85
optimal block size in learning lists of items; Vol. 1, No. 2: 85-87.

response latency as a criterion; Vol. 1, No. 2: 87-88.
computer technology; Vol. 1, No. 2: 88-93
Essay tests,
grading of and the effect of selected composition errors; Vol. 3, No. 2: 125-130.
grades on as effected by grammatical and spelling errors; Vol. 4, No. 4: 375-385.
Expenditure for educational and ecological changes within a school district; Vol. 4, No. 3; 241-252.
Eye-hand dominance,
related to reading achievement, intelligence and reversals; Vol. 1, No. 2: 121-126.
effect on second grade reading achievement; Vol. 1, No. 3: 139-143.
related to reading achievement in children with learning disabilities; Vol. 4, No. 2: 133-138.

Factor analysis,
incorrect use of factor scores; Vol. 3, No. 4: 297-304.
Faking,
on personality tests; Vol. 2, No. 3: 137-144.
Fallout shelter facilities in schools and their effect on pupil anxiety, achievement and behavior; Vol. 2, No. 4:237-241.
Female teachers and their effect on male student reading achievement; Vol. 1, No. 2: 113-119.
Fisher's "The Design of Experiments" and its influence on educational research; Vol. 3, No. 3: 223-229.

Gates Advanced PrimaryReading Tests; Vol. 1, No. 3: 140.
—Vol. 4, No. 1: 46.
General Anxiety Scale for Children; Vol. 2, No. 4: 238.
Gifted children,
qualitative dimensions of verbal behavior in; Vol. 3, No. 3: 179-186.
Guessing,
and accuracy of multiple choice test scores; Vol. 3, No. 1: 27-33.

Handwriting,
analysis of errors in; Vol. 2, No. 1: 25-35.
Harris Tests of Lateral Dominance; Vol. 1, No. 3: 140.
Hemmon-Nelson Tests of Mental Ability, College Level; Vol. 4, No. 1: 64-72.
Heterogeneity of items,
and accuracy of multiple choice test scores; Vol. 3, No. 1: 27-33.
Holland Vocational Preference Inventory; Vol. 4, No. 3: 174-184.
Homogeneity of variance,
a test of; Vol. 3, No. 3: 187-190.

Index of Social Position; Vol. 4, No. 4: 368.
Individual differences,
accommodation of, with externally controlled programmed instruction sequences; Vol. 3, No. 4: 273-280.
accommodation of, through computer assisted instruction; Vol. 4, No. 1: 59-73.
Inductive teaching methods,
compared to deductive methods; Vol. 2, No. 4: 223-235.
Influences of colleges on students,
a design for studying; Vol. 4, No. 3: 217-228.
Information storage; Vol. 3, No. 4: 281-296.
Inventory of beliefs; Vol. 2, No. 3: 178-182.
Iowa State University Mathematics Placement Test; Vol. 2, No. 2: 64, 66, 74.

Iowa Tests of Basic Skills; Vol. 1, No. 1: 48.
Iowa Tests of Educational Development; Vol. 1, No. 1: 36-37.
—Vol. 4, No. 2: 139.

Kuder Preference Record; Vol. 2, No. 2: 63.
Kuhlmann-Anderson Test of Intelligence; Vol. 1, No. 2: 114.

Language,
qualitative dimensions of verbal behavior in gifted children; Vol. 3, No. 3: 179-186.
Language arts,
proportion of class time spent in listening, speaking, reading and writing; Vol. 4, No. 2: 117-124.
Language learning,
speaking vs. listening in learning a second language; Vol. 3, No. 3: 169-178.
Lee-Clark Reading Readiness Test; Vol. 2, No. 4: 213.
Learning,
summaries vs. problem solving reviews and errors made during learning and subsequent testing; Vol. 3, No. 4: 251-261.
teaching of problem solving strategies for concept identification tasks; Vol. 4, No. 1: 1-12.
test anxiety and silent reading gain; Vol. 4, No. 1: 45-50.
arousal level and retention; Vol. 4, No. 2: 103-116.
implications for instruction; Vol. 4, No. 2: 109-114.
transfer,
functional-fivedness and transfer in problem solving; Vol. 4, No. 3: 207-215.
advanced organizers and learning abstract mathematics; Vol. 4, No. 3: 295-301.
principle generality and mathematics learning; Vol. 4, No. 3: 303-319.
Learning, observational,
in simulated recitation group; Vol. 1, No. 1: 26-34.
Learning principles,
application of to the training of radio code operators; Vol. 1, No. 1: 62-74.
Learning theory,
implications for elementary-school curriculum; Vol. 1, No. 2: 79-93.
individual differences; Vol. 1, No. 2: 79-82.
reinforcement and correction; Vol. 1, No. 2: 82-83.
nature of transfer; Vol. 1, No. 2: 83-85.
optimal block size in learning lists of items; Vol. 1, No. 2: 85-87.
response latency as a criterion; Vol. 1, No. 2: 87-88.
computer technology; Vol. 1, No. 2: 88-93.
Lorge-Thorndike Intelligence Tests; Vol. 1, No. 2: 140.
—Vol. 1, No. 4: 186-196.
—Vol. 2, No. 2: 76.
—Vol. 3, No. 2: 133, 137.
—Vol. 3, No. 2: 150.
—Vol. 4, No. 1: 46.
—Vol. 4, No. 4: 392.

Memory,
226, 231.
organization and operation of; Vol. 3, No. 4: 281-295.
Mental age,
and acquisition of problem solving strategies; Vol. 4, No. 1: 1-12.
Metropolitan Achievement Tests; Vol. 2, No. 1: 20-22.
—Vol. 3, No. 2: 132.
Metropolitan Reading Readiness Test; Vol. 2, No. 1: 27.
Michigan State University Reading Test; Vol. 2, No. 3: 178-182.
—Vol. 3, No. 3: 191-194.
Miller Analogies Test; Vol. 2, No. 4:

Minnesota Multiphasic Personality Inventory; Vol. 2, No. 3: 140.
Minnesota Scholastic Aptitude Test; Vol. 4, No. 3: 232-237.
Minnesota Teacher Attitude Inventory; Vol. 1, No. 4: 229.
Minnesota Tests of Creative Thinking, validity of; Vol. 4, No. 4: 387-396.
Missouri Biographical Data Inventory; Vol. 3, No. 2: 106-109.
Modes of study,
written notes compared to mental notes; Vol. 3, No. 1: 7-12.
Monroe Diagnostic Reading Tests; Vol. 4, No. 2: 135.
Motivation,
discovery learning, task completion and assignments related to motivation for continued learning; Vol. 2, No. 4: 217-222.
Multiple discriminant analysis,
factorial design; Vol. 2, No. 3: 175-184.

National Merit Scholarship Qualifying Test; Vol. 1, No. 1: 36-45.

Occupational attainment,
important factors in; Vol. 4, No. 2: 147-153.
Ohio Social Acceptance Scale; Vol. 3, No. 2: 150.
Omnibus Personality Inventory; Vol. 2, No. 3: 137-143.
Operational definitions; Vol. 1, No. 3: 183-201.
Overachievement,
clarification and meaningful use of; Vol. 1, No. 2: 101-112.

Paired associate learning,
sense modalities and time between stimulus and response items related to; Vol. 2, No. 2: 89-99.
Peabody Picture Vocabulary Test; Vol. 4, No. 1: 46.
Perceptions of the effective teacher,
factor analysis; Vol. 3, No. 3: 159-168.
Personality,
effect of college environment on student personality and interests; Vol. 4, No. 3: 173-190.
and teacher trainee initial teaching style; Vol. 4, No. 3: 253-259.
Personality inventories,
California Personality Inventory; Vol. 1, No. 1: 52-59.
Maudsley Personality Inventory; Vol. 1, No. 1: 54-58.
Minnesota Multiphasic Personality Inventory; Vol. 1, No. 1: 52-59.
suggested contexts and faking on; Vol. 2, No. 3: 137-144.
Philadelphia Verbal Ability Test; Vol. 1, No. 4: 212.
Pintner General Ability Test; Vol. 2, No. 1: 20-22.
Prediction of academic success,
interest index items useful in; Vol. 2, No. 2: 101-112.
comparison of statistical models for predicting grades; Vol. 2, No. 3: 145-162.
loss in accuracy when applying one year's prediction equation to subsequent classes; Vol. 2, No. 4: 203-206.
biographical data used to predict persistence in college; Vol. 3, No. 2: 105-111.
used as objective probability information in a decision making model; Vol. 3, No. 4: 263-271.
early attrition with a biographical inventory; Vol. 1, No. 2: 127-135.
test scores and cumulative GPA used in predicting successive term GPA: Vol. 3, No. 3: 191-197.
adjusting for high school characteristics in predicting college first year GPA; Vol. 4, No. 3: 229-240.

Prediction of preference for and satisfaction with major field, interest index items useful in; Vol. 2, No. 2: 101-112.
Primary Mental Abilities Test; Vol. 2, No. 4: 238.
Programmed instruction,
importance of the required response; Vol. 1, No. 4: 203-209.
retention of as a function of response mode; Vol. 1, No. 4: 211-218.
effectiveness when used as review vs. when used as introductory material; Vol. 1, No. 4: 211-218.
compared to usual classroom procedures in teaching boys to read; Vol. 1, No. 2: 113-119.
comparison of inductive and deductive sequencies in; Vol. 2, No. 4: 223-235.
learner control of materials to be learned; Vol. 3, No. 1: 1-6.
compared to text book study; Vol. 3, No. 1: 7-12.
and development of test-wiseness; Vol. 3, No. 1: 13-17.
critique of a report of a research study on programmed instruction; Vol. 3, No. 1: 49-53.
and a model for classification of reading behavior; Vol. 3, No. 2: 99-100.
strategies for accommodating individual differences in use of externally controlled programs; Vol. 3, No. 4: 273-280.
computer-controlled presentation compared to a programmed text and a conventional text; Vol. 4, No. 1: 59-73.
measure of the degree to which material is programmed; Vol. 4, No. 2: 87-101.
importance of sequence for material of varying logical structure; Vol. 4, No. 2: 125-132.
effects of prompts on learning in; Vol. 4, No. 4: 345-352.
Project Talent,
findings, Vol. 1, No. 1: 2-9.
Purdue English Test; Vol. 1, No. 4: 230.

Quality Measurement Project of New York State Education Department; Vol. 1, No. 1: 48.
Quasi-experimental design for a pretest-posttest situation; Vol. 2, No. 2: 83-87.
Questions: use and placement of to facilitate learning from written materials; Vol. 3, No. 4: 241-249.

Reading,
efficiency and eye movements; Vol. 2, No. 4: 187-202.
texts, quantifying the difficulty level of; Vol. 2, No. 1: 13-18.
model for the classification of reading behavior; Vol. 3, No. 2: 89-103.
possibilities for research on; Vol. 3, No. 2: 98-99.
and programmed instruction; Vol. 3, No. 2: 99-100.
related to an analysis of verbal behavior; Vol. 3, No. 2: 100-103.
proficiency as effected by instruction in a second language; Vol. 4, No. 4: 367-373.
Research designs,
class of pseudo-experiments and analysis of covariance; Vol. 3, No. 2: 79-87.
Response hierarchies,
excited by verbal and pictorial stimuli; Vol. 1, No. 4: 241-248.
Response sets,
in personality scales; Vol. 1, No. 1: 52-61.
Retention of visual displays,
effect of auditory and visual labels; Vol. 3, No. 1: 55-67.

Risk taking,
model of for objective examinations; Vol. 4, No. 1: 31-43.
Scholastic Aptitude Test; Vol. 1, No. 2: 127-130.
—Vol. 2, No. 3: 146-148.
—Vol. 2, No. 4: 205.
School and College Ability Test; Vol. 1, No. 4: 230.
—Vol. 2, No. 2: 107-109.
—Vol. 4, No. 1: 21-28.
Secondary education,
research on; Vol. 1, No. 1: 1-9.
16 Personality Factor Questionnaire; Vol. 4, No. 3: 174-186.
Skeletal maturation,
as related to the performance of the human organism; Vol. 1, No. 3: 153-158.
Snader Read General Science, Form AM; Vol. 4, No. 4: 392.
Snader General Mathematics, Form AM; Vol. 4, No. 3: 392.
Speech comprehension as affected by various presentation patterns of speeded speech; Vol. 4, No. 4: 353-360.
Stanford Achievement Tests; Vol. 2, No. 4: 238.
—Vol. 3, No. 1: 14.
—Vol. 3, No. 2: 133, 134, 137.
—Vol. 4, No. 3: 263.
Stanford-Binet Intelligence Test; Vol. 3, No. 3: 180.
STEP Social Studies, Form 3A; Vol. 4, No. 4: 392.
STEP Writing, Form 3 A; Vol. 4, No. 4: 392.
Strong Vocational Interest Blank; Vol. 2, No. 2: 63-74.
—Vol. 3, No. 3: 200-208.
Student records,
intercorrelations and factor analysis of teacher grades and standardized test scores; Vol. 2, No. 1: 19-23.

Teacher behavior,
and pupil creativity-test gains; Vol. 2, No. 2: 75-82.
and course characteristics; Vol. 3, No. 1: 43-47.
and student evaluation of teachers; Vol. 3, No. 1: 35-47.
Teachers,
factors related to the holding of second jobs; Vol. 4, No. 1: 51-58.
Teacher turnover,
related to teacher morale; Vol. 2, No. 3: 163-173.
Teaching,
based on a science of learning contrasted with teaching based on a theory of teaching; Vol. 3, No. 2: 139-146.
Test Anxiety Scale for Children; Vol. 2, No. 4: 238.
—Vol. 3, No. 1: 19.
—Vol. 4, No. 1: 45-49.
Testing,
influence on student learning; Vol. 1, No. 3; 169-182.
effects of essay, multiple choice and true-false tests; Vol. 1, No. 3: 170-172.
complexity; Vol. 1, No. 3; 172-173.
frequency of testing; Vol. 1, No. 3: 173-175.
time between studying and testing; Vol. 1, No. 3: 175.
knowledge of results; Vol. 1, No. 3: 175-176.
student-teacher influence; Vol. 1, No. 3: 176.
Test of Critical Thinking; Vol. 2, No. 3: 178-182.
Test of Educational Ability; Vol. 2, No. 4: 238.
Test-wiseness,
programmed text use in development of; Vol. 3, No. 1: 13-17.
Triggs Diagnostic Reading, Form A; Vol. 4, No. 4: 392.

Underachievement,
clarification and meaningful

use of; Vol. 1, No. 2: 101-112.
classroom behavior variables related to; Vol. 2, No. 1: 1-12.
Ungraded classes,
compared to graded classes on reading achievement and other variables; Vol. 2, No. 4: 208-215.
Vineland Social Maturity Scale; Vol. 1, No. 2: 95.
Vocational interests,
effect of college environment on; Vol. 4, No. 3: 173-190.
Vocational preferences,
consistency of; Vol. 1, No. 1: 10-21.
Wechsler Intelligence Scale for Children; Vol. 1, No. 4: 220.
—Vol. 4, No. 2: 134.
Wide range Achievement Test; Vol. 4, No. 2: 134.
Word-Fluency tasks,
performance on as a function of task variables; Vol. 1, No. 3: 145-151.
performance on as related to *Ss* educational levels; Vol. 1, No. 3: 148-151.

American Educational Research Association

Executive Officer, Richard A. Dershimer

ASSOCIATION COUNCIL 1968

President: DAVID R. KRATHWOHL, Syracuse University, Syracuse, New York

President-Elect: ROALD F. CAMPBELL, University of Chicago, Chicago, Illinois

Immediate Past President: JOHN I. GOODLAD, University of California, Los Angeles, California

Members-at-Large: W. W. CHARTERS, JR., Center for Advanced Study of Educational Administration, University of Oregon, Eugene, Oregon; NED A. FLANDERS, University of Michigan, Ann Arbor, Michigan; ROBERT M. W. TRAVERS, Western Michigan University, Kalamazoo, Michigan

VICE-PRESIDENTS

Division A: RICHARD O. CARLSON, Center for Advanced Study of Educational Administration, University of Oregon, Eugene, Oregon

Division B: B. OTHANEL SMITH, University of Illinois, Urbana, Illinois

Division C: ARTHUR R. JENSEN, University of California, Berkeley, California

Division D: JACK C. MERWIN, University of Minnesota, Minneapolis, Minnesota

Division E: NORMAN R. STEWART, Michigan State University, East Lansing, Michigan

Membership in AERA is of four types—active, associate, student affiliate and international affiliate. The *active members* receive all of the privileges of membership, including the right to attend all meetings, to participate in AERA affairs, to vote and hold office, and to receive publications of the Association. The *associate members, student affiliates,* and *international affiliates* receive all publications sent to active members, but they may neither vote nor hold office.

Persons wishing to apply for any of these four classes of membership may do so on application forms that will be supplied on request by the Executive Officer. A person wishing to become an *active member* must list his qualifications and have them verified by one AERA active member who signs his application as sponsor. An applicant for *student affiliate* must have his application endorsed by an AERA active member who is on the faculty of the institution where he is studying. A person seeking acceptance as an *associate member* or as an *international affiliate* may submit a signed application form without any endorsements, but international affiliates must be citizens of countries other than the United States and Canada.

Memberships in AERA are for the calendar year. Annual dues—$15 for active and associate members, $7.50 for student affiliates, and $9* or $5** for international affiliates—are payable by March 1 of each year.

* If a citizen of the United Kingdom, Australia, New Zealand, or a European country.

** If a citizen of a country other than the United States, Canada, the United Kingdom Australia, New Zealand, or a Europeen country.
